In *Secretly forced brain implants Part I*, information was provided about Wichita, Kansas resident James Walbert, his winning his first court case [evidencing being under surveillance and technologically abused](#), the court ordering the perpetrator to halt the abuse; the continuation of the abuse and subsequent continuation of his battle to survive, this time in federal court. The federal case is due to be equally explosive

partially because Walbert will be presenting proof of being forcibly brain implanted and implanted elsewhere in his body for the purpose of technological abuse and slow-kill, part of a government program well hidden by media and others who are complicit.

Part II

Proof that James Walbert, resident of Wichita, Kansas is [experiencing torturous U.S. human rights abuses involving covertly forced, implanted RFID chips](#), including one in his brain, and subsequently kept under surveillance for the remote electronic injury is evidenced in his [MRI scan and letters from investigators, health professionals and Representative Jim Guest](#) (Missouri).

"This had to be known for all to see," stated Walbert following the August 19 *Examiner* article about his forced brain implant and other implants.

"What I am offering is validation of this crime against women and children," he wrote today to a large group of other [Targeted Individuals](#) in an internet survival support group.

"This crime will no longer go unnoticed and unheard. That's the bottom line here.

"What these people have done to children and women is just sickening to me."

Walbert now unofficially represents thousands of American [Targeted Individuals](#), innocent children, women and men covertly persecuted in the United States - in their own homes and communities - by one of, if not the single most sophisticated organized criminal systems to hit the planet. (For more information about Targeted Individuals, see articles at: [National Targeted Individuals, Examiner](#))

Researcher [Marshall Thomas](#) writes that the Targeted Individual treatment is a combination of three of the most abusive U.S. intelligence programs in history: [MKUltra mind control](#), [Phoenix Program](#) torture/assassination in Vietnam war era, and FBI's [Cointelpro](#) (counter-intelligence program) that targeted and neutralized innocent Americans for political purposes. (See: Dupre, D., [Hit-listed Targeted Individuals call for Senate Judiciary Committee Investigation, Examiner](#), Dec.7)

Walbert's health advocates are among remaining ethical professionals in the U.S. health system. They are obviously not following orders to remain silent about the government sanctioned terror cells operating in American communities conducting the "New Phoenix Program."

Hundreds of credible self-identified Targeted Individuals report that almost every American psychologist and psychiatrist turns a deaf ear to the target's cries for help - and often, worse - according to their online survival support group communications and testimonies. Without investigating claims of electronic harassment and torture, psychiatrists are likely to slap a mental illness diagnosis on people who complain about the targeting treatment and in many cases, have them committed to a mental institute. There, the medical experimentation and other abuses can continue - on U.S. soil in U.S. facilities.

Tortuous abuse is thus not limited to APA heads and overseas subjects in detainee situations as the [Coalition of Ethical Psychologists have focused attention](#) and investigations. Health professionals across the nation, however, remain as silent about the in-country, covert electronic harassment, torture and slow-kill of fellow Americans as did Vietnamese under the first U.S. Phoenix Program atrocities including torture and assassinations.

Obama has now furthered Bush's [assassination program on U.S. soil, part of the new Global Phoenix Program](#) under guise of the "war on terror." The horrendous system is built into former President Bush's PATRIOT ACT that Congress has not repealed.

In the article, *Shocking state secret: PATRIOT ACT illegal spy domestic terror campaign against Whistleblowing TIs*, Dupre' wrote:

"General David Petraeus, current Commander, U.S. Central Command, advocated the "global Phoenix Program," alluding to the notorious Vietnam-era CIA data-base operation used to torture and assassinate innocent civilians due to their political beliefs. (Tom Hayden, [Reviving Vietnam War Tactics](#), The Nation, 2008) Global includes the U.S."

In this new government program, law enforcement systematically allow the electronic abuse and torture of Targeted Individuals to continue. In Walbert's case, however, the Court ordered the abuse to halt.

Since the electronic abuse of Walbert did not stop; the implants are still lodged in his body; and his physical condition is deteriorating daily according to doctors' reports (below), new charges against the Wichita police department involving their negligence have been filed in federal court. (See: Dupre, D. [Secretly forced brain implants: Explosive court Case, Examiner](#), August 19, 2010)

Rep. Jim Guest defends Walbert

In a letter dated March 22, 2010 Re: **Mr. James Walbert, Implant of Foreign Device**, Jim Guest, State Representative, 5th District, wrote:

"I have been acquainted with Mr. James Walbert for over three years and his personal struggle to get relief from the continuing electronic harassment, physical abuse and intimidation he is subjected to. I have complete confidence in the honesty and character of Mr. Walbert. He is an individual who is exhausting all avenues to get the RFID implanted device removed from his body.

"There is sound medical evidence and medical evaluation to verify that an implanted device does exist in the body of Mr. Walbert.... Technicians, medical clinicians and physicians, private detective agencies and other mental health professionals have verified the accuracy of reports and MRI scans about James Walbert....I implore those who have the experience and authority to remove this device or devices from the body of Mr. James Walbert as soon as possible. It is a humanitarian issue to let Mr. James Walbert return to a normal life."

Dr. Hildegard Staninger defends Walbert

In a letter dated February 5, 2010 **RE: Mr. James Walbert's Removal of Foreign Bodies**, Dr. Hildegard Staninger, RIET-1, Industrial Toxicologist/IH and Doctor of Integrative Medicine, wrote:

"This letter is to be used in conjunction with the medical support reports that I have previously authored. My reports and findings were based on review of previous medical records/reports and advanced biological monitoring test results conducted through Integrative Health Systems, LLC.

"It is of a severe medical necessity, that Mr. Walbert has these particular foreign bodies removed. The foreign bodies are composed of an **implantable self-powered piezoelectric generator** (generates 288 MHz) that is interfering with his normal muscle stimulations and severe overstimulation of site specific muscle contractions... (Emphasis added)

"The over stimulation from piezoelectric micro/nano foreign bodies will cause Mr. Walbert's plasma membrane to form anchors for glycoprotein "oxyglycosides" within the skeletal muscles and membrane vesicles on the surface where any previous bacterial, fungal, or viral residue may have lodged within his neurological system (Ex: ... **exposure to containment SV 40 (Simian Virus 40-45) from polio vaccines as a child**). As the anchoring effect occurs **a magnification of the neuro electrical output from his bodies nervous system will be enhanced over 100% and cause internal electrical shock stimulations to his muscles.** (Emphasis added)

"These oxyglycosides are also associated with new clinical data from China... multiple sclerosis and muscular dystrophy. Therefore, if Mr. Walbert's muscles (through the overstimulation of the piezoelectric generators) cause the production of oxyglycosides, he will be at an increased risk to these diseases."

In her letter, Dr. Staninger references the document, [NASA Glen Research Center for Feasibility of an Implantable Stimulated Muscle Powered Piezoelectric Generator](http://www.nasa.gov/pdf/202.118.250.135/nasa/STAR/star0710.pdf), www.NASA.gov: 202.118.250.135/nasa/STAR/star0710.pdf)

Private Investigator Melinda Kidder defends Walbert

In a letter dated January 28, 2010, owner of Columbia Investigations, Melinda Kidder wrote:

"I am the owner of Columbia Investigations, a licensed and bonded private detective agency. My firm has been retained by Mr. Walbert to assist him in investigating his claims of continuing electronic harassment, physical abuse, and intimidation.

"All clinicians and physicians consulted by Mr. Walbert have confirmed the presence of RFID implants on his person through copious medical testing, including an MRI, toxicological testing, telemetric scope and frequency testing and more. These professionals in the fields of medicine and electronic harassment have confirmed the presence of physical trauma related to these implants as well as the locations of the implants themselves....

"Based on the previously referenced reports and mechanical analysis of the suspected type of implants, it is my professional investigative conclusion that the perpetrator of implantation of Mr. Walbert has been using, and will continue to use, this technology to electronically stalk and harass Mr. Walbert if the judicial system and law enforcement do not intervene.

"I, the undersigned individual, do hereby under the penalties of perjury swear that I have written and re-read the contents of this letter and I hereby certify that the statements made therein are factual and accurate to the best of my knowledge."

The Federal Court case, James R. Walbert VS Wichita Police Dept was filed on July, 20, 2010 under Civil Action No. 10-1234-EFM-GLR.

The Bill of Rights Committee has demanded accountability related to these crimes and in June, called on Americans to do the same by [signing its letter to the attorney general](#)..(See: Dupre, D. [Today's US medicos and military Nazi human experimentation](#), *Examiner*, June 7, 2010)

Jim, a Targeted Individual commented on August 20:

"There needs to be Congressional Hearings where the thousands of non terrorist ordinary Americans who are getting attacked daily by directed energy weapons and organized gang stalked as well as targeted with numerous other COINTELPRO tactics get a chance to come forward and describe how their lives have been ruined and how they have been tortured in their own homes in the name of Homeland Security by the organizations within the Homeland Fusion network...

"This needs to happen and the leaders of both political parties are responsible to see it gets done."

Until then, the U.S. medical system and military in partnership engaging in [non-consensual human experimentation](#) associated with [torture](#) according to [the recent Physicians for Human Rights report](#) is likely to continue unless one courageous man, James Walbert, with support of a handful of ethical health professionals still practicing the Hippocratic Oath precautionary principle of "First do no harm," can overcome the covert army operating against innocent American civilians.

Hello, my name is Jesse Beltran, I am a retired Sacramento City Firefighter Paramedic, I would like to commend you on your stance and fight to abolish this type of technology without the consent of the person. I was witness to a murder that was done by law enforcement, the murder was covered up and none of the witnesses on scene were questioned. This was done in front of the victim's five-year-old daughter. I was one of the paramedics that tried to resuscitate the victim. About a year and a half ago I was in a round robin discussion about these types of abuses, and unknown to me there were persons involved with law enforcement present. I was rendered unconscious at a medical procedure against my consent and out for about 3 to 4 hours. When I awoke, I immediately noticed a 60 cycle high frequency transmission. My background is also in IT. I have had MRI Scans, CT Scans, as well as high digital panoramic x-rays which clearly show the RFID chips. They try to hide them in the temporal mandibular area which are not easily seen by normal dental x-rays. I would love to hear from you and relay my experience and my current legal battle here in Sacramento, California.

Respectfully,

Jesse Beltran

The United States is likely the single worst tyranny this world has ever seen. Endless wars, offshore torture, medical experimentation, and using its own citizens as toxic waste filters (ex, fluoride). And yet, the people continue to "vote" – what...for their puppets? Stop voting and start demanding change. It's the only way to change this tyranny called "Liberal-Democracy."

Neoliberalism is not "liberal democracy". Neoliberalism is just double-speak for more of the same imperialism the earth has been subjected to the last 500 years. $2+2=5$.

This article never said how he got the implant, which would have been really informative. It also never touched on what he meant by his comment about "children and women". So I'm left with more questions after reading this article which is frustrating. I have no doubt this happens but would like to know how so I can avoid it. Was he in the military? Stationed overseas? Did he have a surgery that they slipped this in? Is it the nano technology in vaccinations that implants children? I understand these answers might not be known, but at least say so, so the reader isn't left wondering why such pertinent information was left out of the article. I wish Mr. Walbert much luck and a peaceful conclusion to his nightmare.

Thank you, Meme. We are working on answering excellent but tough ones questions requiring too much more space than we could include. I will pass you kind regards to Mr. Walbert. I can tell you that women and children are reporting being severely abused as part of this treatment.

another survivor 1 year ago

Hi Meme. I saw your reply and wanted to thank you for the support for Mr. Walbert. His standing up to these monsters gives all of us hope. He's blazing new territory, and fighting an uphill battle. With the help of outraged health professionals, Representative Guest, and well-known and highly credible journalists such as Deborah Dupree, hopefully he will not only get help for himself personally, but help many others that are assaulted daily by this system.

When it comes to their using it against women and children, sexual assault seems to be one of the goals. These people are using implants and this brilliant system in the arena of human trafficking as well, and the women they pick never stand a chance.

These people are strategically picking single attractive women that live alone. Women that DO NOT HAVE THE FINANCIAL ABILITY TO FIGHT BACK, or like me, were without a local family support system.

They utilize very advanced psychological harassment techniques in a full psychological assault. This form of horrific stalking/harassment coupled with increased druggings is strategically aimed at forcing the victim into total and complete psychological breakdown. These techniques are employed to confuse and frighten the victim, and push them into financial ruin. The more vulnerable the woman, the better. I know of another woman on the west coast (seems to be a hotbed for this) that was not only targeted, but both of her children were as well.

The destruction and the violation of the woman is nothing more than a game to them. These VERY CONNECTED sick people play cat and mouse with the victim, and since they have the authority to put the victim under surveillance, get to watch what I like to call the "government sanctioned peepshow", which the ACLU has been screaming about since the Patriot Act was instituted.

Then once the woman is too traumatized to fight back, the torture, training and countless sexual assaults begin. Victims are too drugged and confused to fight back. The pain starts, and sleep deprivation campaigns are remarkably effective in terms of minimizing the victims cognitive skills.

Other people are selected targets because they had the misfortune to make the wrong person angry. Still some become targets because they have varied political or spiritual beliefs. There are airline whistleblowers, journalists, and writers. AS an example, Gloria Naylor, a very famous author (wrote WOMEN OF BREWSTERS PLACE) was chosen because of her political beliefs, and I believe because she was a VULNERABLE SINGLE WOMAN living alone.

As a side note, I want you to think about where they would strategically put an injectable implant on a woman or child that they wanted to control with this new technology. (actually it's very similar to that used in muscle stimulation tens units)

Then imagine that terrorized woman fleeing across the country, thinking she would be safe and the attacks would stop. But when she gets there, someone is still hurting her through the use of this technology. She finds that overnight she has become a criminal in the eyes of her new community and this further leads to her destruction if she cannot find a support system.

I believe that there are people that are abusing the very system that was in theory put into place to protect our country. Some are using it for personal vendetta, and I truly believe there are those that have figured out how to do this as a revenge-for-hire deal.

It seems this system is being employed for a variety of purposes. Mine was for sexual trafficking. Mr. Walberts was because he had what someone else wanted. Someone said once to "follow the money".

Protection of our country and biotechnology are two huge money makers right now, as our government is investing in both. At a time when our country's financial infrastructure seems to be crumbling, funding is limitless when it comes to government spending in these arenas.

Hence it is a self perpetuating scenario. There MUST BE criminals in order for there to be a need. So, people are targeted that are NOT criminals. There are more and more private security contractors out there using advanced technology, this support infrastructure and this money in brilliant and sinister ways.

Sexual trafficking has now gone high tech as well, and that is an industry that has ALWAYS been profitable. To the extent that technology is being developed for good, criminals are using it for evil. THIS IS HAPPENING, AND THERE ARE MANY MANY people trying to come forward.

Thanks to Mr. Walbert, Ms. Dupree, Representative Guest, and others that are becoming aware, victims might now have a fighting chance.

The pix is not bogus, and i happen to be very aware of this particular battle on a variety of levels.

How easy it is to stand a throw a rock under the guise of being anonymous, while others are fighting for the daily liberties you so enjoy. Liberties which include the right to live, have a family, a home without constant harassment and physical pain being inflicted upon their person. The right to a full night's sleep, the right to privacy and not being harassed 24/7.

James Walbert , Deborah Dupree, Representative Jim Guest have all gone public, and they would never have had to come forward on this in the first place if it wasn't a major problem. I know of one board certified anesthesiologist that actually wrote a book on this very problem. I

There is so much evidence by REPUTABLE physicians and private detectives that he has a case. Reputable people that have names, and that are willing to put their own credibility on the line to stand up for this horrific civil rights abuse that is in our own country.

HIDE and WATCH. there are those of us that are standing and praying.

My name is the name of my Youtube Channel. I think this guy is a hoax Multiple implants, what a CROCK! You only need one and it only needs to be slightly beneath the skin. I think he is full of crap personally!

There are ways to find out if you may have one. CT/MRI is one way. But you can also find one with a RF Field strength meter and a microphone or something to amplify.

Chips work on FM frequencies. If you can pick up and prove an FM frequency then that is proof enough for me, unless you live on top of a FM broadcasting station. The way FM works is with a MODULATOR. If you can read it without a modulator then that is the best evidence, other than having the damn thing removed. For which, I doubt you could find a doctor to do.

The State of Ohio BCI (Bureau of Criminal Identification) is apparently chipping people to find ways to arrest them. So if you live in Ohio, watch out! Criminals With a Badge.

some "information" here is bogus, the only intent being to dilute the real phenomenon of Government abuses. In fact, once an individual has been targeted by the American Government, a whole range of options exist to harass them. These include ritual illegal home entries and tampering with personal items, endless and warrantless surveillance, and threading details of these things into major (and some minor) Hollywood film productions - on this last point, even actress Cate Blanchett more-or-less stated the fact at Australia's 2020 conference in Sydney in 2007, speaking of the collusion between Government and film industries (she said it was "good for society!"). This phenomenon plays out in film titles, and various details in the individual movies So while I must shake my head at the flippant and unsupported claims in this article on some points, the situation is, in reality, far more serious and sophisticated than the author claims.

 Reply

ZC 1 year ago

How would you know the intent of the writer of this article? Why do you have no words of gratitude? How many articles on main alternative sites have disclosed what Dupre has here? I can tell you - not many if any. This woman is revealing things we need to know. You need to read the dozens of other articles Dupre has written about targeted individuals and stop your cruelty. She covers unforced break-ins, animal killings, mind control... Which points are "flippant" and "unsupported"? There needs to be an organization for the prevention of cruelty to humans - and maybe you could join to learn.

What do you mean by "never again will they harm a child, woman, or man without dealing with me!" Just how have you protected these women and children? IF there are others used as experimental subjects for this then they are being harmed at this very moment are they not? And you are doing what to stop this? This type of statement is exactly why experimental subjects are not believed because they continue and Debra did not do you any favors by quoting you say such a ridiculous thing either.

I want to believe this, because I believe there are very sinister forces at work behind the scenes.. Plus, so many awful things are invented along with the good, and it is too tempting to use them for evil purposes. But this article, please Debra, try to stick to objective fact giving journalism, because with the tone that these articles are written, and the lack of substantiation (just saying many people say this, or many people are effected, is not journalism! And links are not a substitute! Especially when links disappear into the memory hole, or are not even substantive) tends to detract from the credibility of this article.

And if these allegations are true, they deserve a more professional handling, so that it is not easily dismissed.

The video I was excited about, thinking it would clarify things, but it too fails to explain things. For god's sake, he says a kidnapper was beaten to death, without mentioning that the "kidnapper" was the child's parent, if what another commenter has mentioned here is true. And if not, who is going to have sympathy for a man kidnapping a small girl? No way. So maybe the focus should be on other things, substantial things, like who the heck is this guy that he is actually suing? It sounds like a private citizen, due to lack of any other indications. So start with what, then who, then finally, why, which is just speculation anyways, probably.

 Reply

Anonymous 1 year ago

Fuck them. The tones are not that big a problem, in fact the tone was there as a kid, it just gets louder based on certain thought patterns. It can be fought from a conscious perspective and you can shut it off. Also, I believe there are devices being put in the home to power the transmissions. If you have friends or family that are on head meds dont let them in your house. They are vulnerable assets being used to screw with you. Also, make sure when you purchase goods that you find and remove the rfid chip. Only purchase things with cash, stop telling them where you buy goods and what you buy. And if/when it gets to the point of you dying because of this, do us a favor and kill a bunch of them on your way out. I will.

Governments take extreme actions to hide involuntary biotelemetry implants.

Implant victims are tracked 24/7 and efforts to get MRI/X-rays are easily thwarted.

Victims are manipulated and radiographic images are modified and/or medical personnel impersonated to hide the evidence.

See some examples of implants below:

Hello Mr. Walbert! It is of great pleasure to see that you have exposed the truth about "Crimes against humanities" in the U.S.A I will be following your progress with hopes that the torture aimed at myself and my son (a child) will come to a halt soon! I am so embarassed by all that our Govt is doing this to us and for experimental reasons, we need help what can we do and where can we be safe? I have been forced to relocate 3xs since this all started. Pls post your direction is greatly appreciated. T~ in NM
